MEET LAYLA!

What's your name?

Hey I'm Layla,

I love fashion, sewing, and creatively recycling clothes. One of my favourite things to do is sewing new gifts for people by re-using old fabric.

I'm also really good at solving difficult maths problems, which always comes in handy!

My friends are always asking me for fashion advice and help with their math homework.

I also love gardening along with the help of Kiya, my super cute cat. I'm really proud of my herb garden and strawberries.

When I have some spare time, I'm usually looking at books on gardening, or thinking about new things I can make.

When I grow up, I can't wait to create my own fashion line - one that doesn't add waste to the world!

Peace, Layla

MEET KARIMA!

What's your name?

Hey! Karima here,

I love everything about history and outer space; the stories, hidden treasures, stars, planets... you name it.

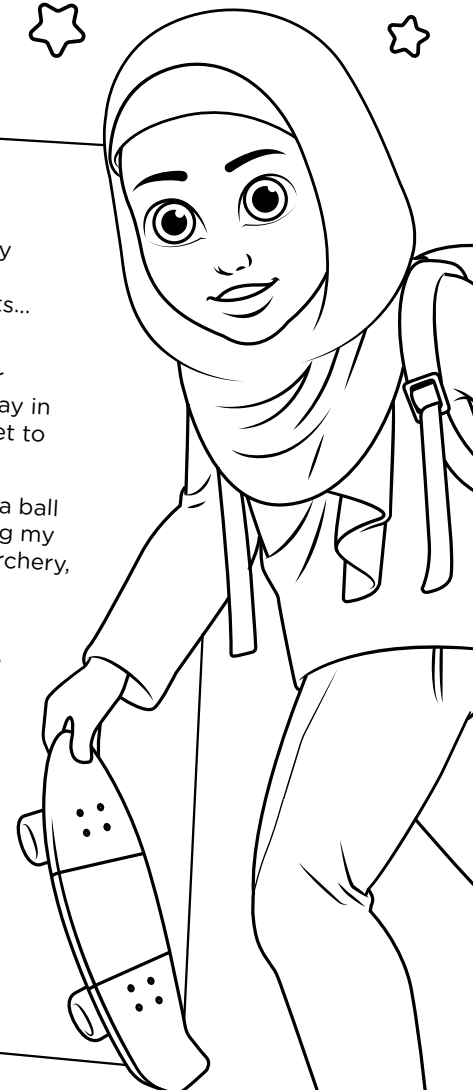

At school I'm the leader of our tennis club. It's super fun to play in competitions and it means I get to meet lots of new people.

My friends and family call me "a ball of energy" because I love giving my all to my favourite things like archery, camping, and making obstacle courses.

You can rely on me to know the names of all the constellations in the night sky and to see the positive side of things.

When I grow up I want to go into outer space and discover new planets or lead the excavation of a large archaeological site of an ancient civilization.

Love, Karima

MEET YASMINA!

What's your name?

Hello! Yasmina here,

I love taking photos, reading, volunteering to help others, and spending time with my beautiful horse Lily.

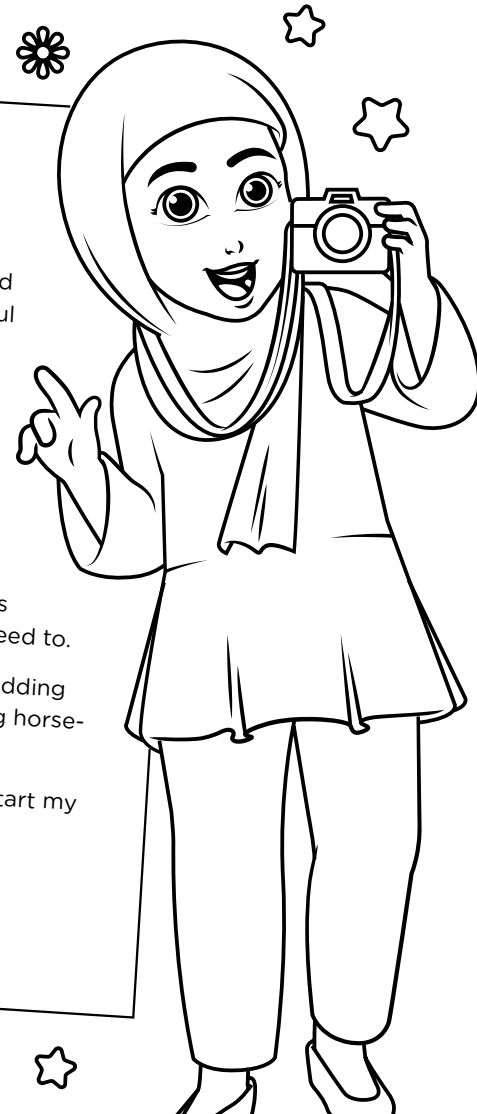

At school I'm part of the student council. I enjoy it because we get to run projects like fundraising for charities and other special events.

My friends and family know that they can rely on me to get things done and take the lead when I need to.

In my spare time, you'll find me adding photos to my scrapbook or going horse-riding.

When I grow up I really want to start my own charity.

Peace, Yasmina.

MEET NURA!

What's your name?

Hi, I'm Nura,

I love everything about science and solving mysteries. I spend a lot of time thinking up crazy new inventions and I'm always sharing my ideas with my friends and pet bird Zuzu.

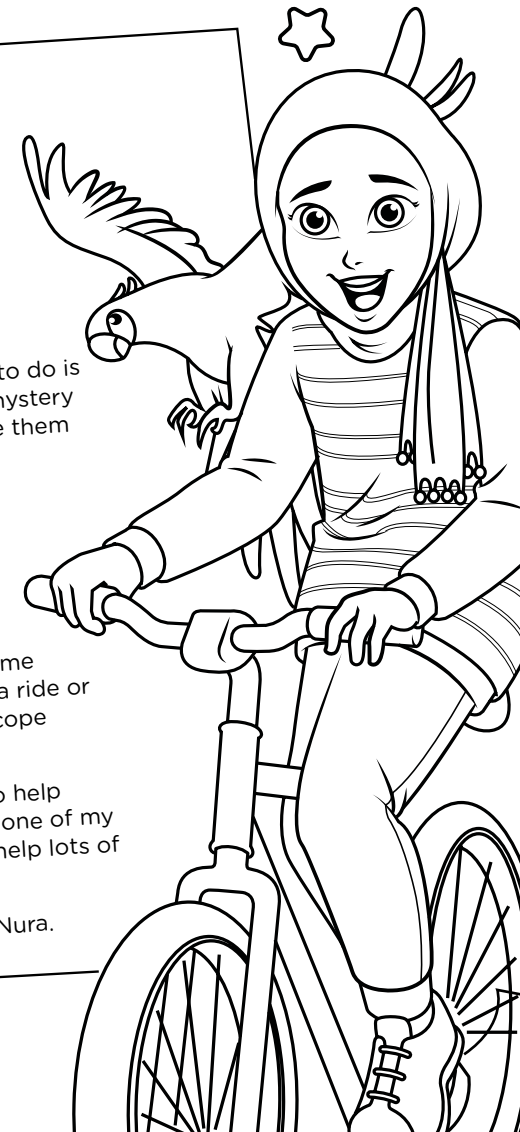

One of my favourite things to do is to solve puzzles and read mystery novels, I love trying to solve them before the story unfolds.

I'm also working really hard to memorise the whole Quran, I've almost finished my first juz - make dua for me!

In my free time you'll find me taking my bicycle out for a ride or looking through my telescope at the stars.

When I grow up, I want to help solve a big problem with one of my inventions so that it can help lots of people.

Peace, Nura.

MEET MARYAM!

What's your name?

Hi I'm Maryam,

I love drawing, painting, designing, coding and building just about anything! I also love poetry and telling stories to my little sister and her friends.

One of my favourite things to do is help bring ideas to life by putting my creativity into it.

Everyone tells me I'm super patient, and I think it's true because I like dedicating a lot of time to my designs.

When I have spare time, you'll probably find me playing video games or swimming at the beach.

When I grow up, I want to inspire and help people by building something AMAZING! I don't know what that is yet, but I'm always looking out for the next big idea!

Love, Maryam.
